

# Longhaul Fiber Networks in Lafayette, LA

**L**afayette is a prime area for business development because of its location at the axis of Interstate 10 and Interstate 49, a business-friendly environment and a unique telecommunications infrastructure hub in Louisiana. A variety of traditional and IP based longhaul fiber optic networks serve the Lafayette market. The availability of the LUS Powered Network fiber optic infrastructure within Lafayette enables telecommunications providers to connect local customers to longhaul networks.
